Theſe Four Tables are all to be uſed the ſame way, their difference being only in the Rate of the Profit; which is fit ſhould be more in Houſes than in Lands, becauſe Houſes

are subject to be void of Tenants, and many other Casualties of Fire and Ruine, which Lands are not: And therefore I have briefly hinted in the Tables, which Table is fitteſt for any kind of Purchaſe; not that any one is bound to make his Bargain juſt according to theſe Rates, but hereby any one may judge of his Purchaſe, and know what profit he makes of his Money.

The Tables are ſo plain, that they need no explaining; I have applyed my ſelf to the uſual way of Reckoning theſe Bargains to be worth ſo many Years Purchaſe, only the Year, for more exactneſs, is divided into twelve Months, and not into four Quarters. As for Example:

It's deſired to know what the Leaſe of an Houſe for 21 Years, is worth in ready Money? To find out this, look in the laſt Table, which is Calculated at the Rate of 10 *per Cent.* and is fitteſt for ſuch kind of Bargains: And in this Table at 21 Years, you ſhall find the Value of the Leaſe to be worth 8 Years and 8 Months Purchaſe; ſo that, let the yearly Rent or Value of the Houſe be what it will, the ſaid Leaſe of 21 Years is worth 8 whole Years Rent, and almoſt 3 quarters of the ſaid Yearly Rent, which you may eaſily reckon up, and ſo know the true Value of the Purchaſe: And at this Price you ſhall have 10 *per Cent.* Profit for your Money.

Theſe Tables are made to ſhew the Worth of long Leaſes alſo, becauſe moſt Men value a long Leaſe too much, in reſpect of the Value they ſet upon a ſhort Leaſe; reckoning a Leaſe of 21 Years to be worth but 7, and yet thinking a Leaſe of 60 Years to be worth 12 or 13 Years Purchaſe; whereas you may ſee by this Table, that tho' the Leaſe of 21 Years be worth 8 Years and 8 Months Purchaſe, yet the Leaſe of 60 Years, is not worth full 10 Years Purchaſe; Nay, the Leaſe of an Hundred Years, or the Fee-ſimple, cannot be worth above 10 Years Purchaſe, allowing the ſaid Rate of 10 *per Cent.* for the Money.

Many other Queſtions of Purchaſes and Reverſions might be added; as you may ſee at large in the *Purchaſers Pattern*, written by Mr. *Henry Phillips*, now deceas'd.

Butworth's Lozenges famous for the cure of Cought, Colds, Catarrhs, and Hoarſneſs, *&c.* being alſo a great Cordial, and Sovereign Preſervative againſt all Contagious Diſtempers, Maligant Air, and unwholſome Weather, approved of by the Chief Phiſitians of the College, made and Sold by *James Shipton* an *Apothecary* at the Sign of the *Crown* in *Hatton-Garden*.

A Description of the four Quarters of the Year; and first of Winter.

Sol in *Capricorn, Aquarius, Pisces.*

ACcording to the custom of Writers in this kind, Winter-quarter is the first quarter, which took beginning the 11 day of December, at which time the Sun enter'd into the first degree of the cold and dry Sign Capricorn, being the most remote from us, in his farthest South Declination, causing the days with us to be shortest, and the nights longest. This quarter continues until the Sun hath slowly passed through Capricorn, Aquarius, and Pisces; and doth naturally resemble Old Age.

Of the Spring. *Sol* in *Aries, Taurus, Gemini.*

THis quarter doth take beginning the 9th of March, at which time the Sun entreth into the first minute of Aries, making equal day and night; and continues whilst the Sun is passing through Aries, Taurus and Gemini. This quarter doth resemble Growing Youth.

Of Summer. *Sol* in *Cancer, Leo, Virgo.*

THe Summer-quarter doth take his beginning when the Sun enters into the first degree of Cancer, which will be this year on the 11 of June; and continues whilst the Sun passeth through Cancer, Leo, Virgo. Now the days are longest, and the air hottest; therefore but for necessity, bid Physick adieu.

Of Autumn. *Sol* in *Libra, Scorpio, Sagitarius.*

AUtumn, or Harvest-quarter (commonly called the Fall of the Leaf, of some the latter Spring) begins when the Sun enters into the first degree of Libra, again making the day and night of equal length; which will be this year the 12 of September, and continues whilst the Sun passeth through Libra, Scorpio, and Sagitarius. This quarter doth fitly resemble Declining Age, and Phlegmatick Complexion.
